160 Acres, 18 miles east of Fresno.

ROEDING & WOOD NURSERY CO.—

40 Acres, Devoted to Growing Citrus
Trees, Exeter, Tulare County.

EVENING DEMOCRAT PRINT
FRESNO, CAL.

Notice to Correspondents

1. All orders should be legibly written on a separate sheet of paper, and not mixed up with the body of the letter.

2. It is always advisable to send orders in for nursery stock as early as possible, as those who come first are served first, and we make it a rule to fill all orders in rotation as received.

3. In ordering please state whether substitution will be permitted, as we feel at liberty when no instructions accompany the order to replace with other sorts as nearly similar as possible. Those not acquainted with the different varieties will do well to leave the selection to us, as we will send them only such varieties as we know are adapted to their locality.

4. Our packing and labeling is as perfect as possible, and we charge for the same only to cover the cost of material. All goods are delivered at the railway or express office free of charge.

5. State distinctly how you wish us to ship—by freight or express; also designate the route; otherwise we will use our discretion in forwarding.

6. After delivery to the carriers we can not hold ourselves responsible for any loss or injury to trees or plants after they have been carefully packed and shipped; but we will do everything in our power, if any loss should occur, for the protection and recovery of our customers' property.

7. Orders to be sent by express, C. O. D., will be filled, provided one-half of the amount is sent with the order.

8. If any mistakes are made in filling orders, we will cheerfully rectify the same, but must respectfully request our customers to notify us at once or, at the most, within ten days after the receipt of the goods.

9. Orders from unknown correspondents must be accompanied with a remittance or satisfactory references.

10. We uniformly tie our trees in bunches of 10, and grapevines in bundles of 50; and we suggest to our patrons to make their orders for assortments as far as possible in multiples of these numbers.

11. Articles mentioned in the following list will be furnished at prices named as follows: 5 at the 10 rate; 50 at the 100 rate; 500 or more at the 1000 rate. Less than 5 of a variety at the single rate.

Articles by Mail

For the convenience of those who can not be reached by railroad or express, packages of small articles not exceeding four pounds in weight can be forwarded by mail, such articles to be charged at single rates.

Guarantee of Genuineness

OUR TREES are all budded or grafted as far as possible from bearing trees, and every care and precaution is exercised to have them true to name; still with all our caution mistakes are liable to be made, but we hold ourselves in readiness, on proper proof, to replace all trees and other stock that may prove untrue to label, free of charge, or to refund the amount paid. It is mutually understood and agreed to between purchasers and ourselves, however, that our guarantee of genuineness shall, in no case, make us liable for any greater sum than that originally paid us for said trees, etc., that prove untrue.

Address all letters to

GEO. C. ROEDING, President and Manager,

Fancher Creek Nurseries, (Inc.)

Fresno, Cal.

REMARKS

In presenting to our patrons our price list for the season 1904-1905, we wish to thank them for past favors, and solicit a continuance of same. We shall endeavor to maintain our reputation for fair dealing, and to give our personal attention to all orders entrusted to us, so that the stock we send out shall reach our patrons in good condition and be satisfactory. Our facilities for shipping are as perfect as possible and with our improved methods we are enabled to pack and forward orders at short notice.

Heretofore our local sales yard has been carried on in connection with our main office, 1215 J street, near Fresno street. The grounds were not large enough to permit us to display our stock to advantage nor allow us to keep a complete assortment of trees and plants on hand. We have therefore concluded to combine our wholesale and retail departments under one head, and in the future, patrons desiring to inspect our stock will find a complete line of everything for the farm and garden at our Packing Grounds, on H street, between Amador and Sacramento streets, almost opposite the Southern Pacific Co. roundhouse. In order to keep a full line of palms and decorative plants, we have erected a fine greenhouse 20 by 50 feet and a large lath house, which will be under the charge of a thoroughly competent man. The packing grounds can be easily reached by taking the Forthcamp car. Get off at Sacramento street, and go two blocks west.

Our main office will be located at the old stand, where we are in telephonic communication with all of our nurseries and departments. We invite correspondence. Our services are always at the disposal of our patrons, should they desire any advice on anything pertaining to our line of work.

Our stock of trees for this season is exceptionally fine, both in fruit and ornamental departments; and we are confident that we can please all those who place their orders with us. It is a rule of this establishment to send out no tree or plant which we would hesitate to plant ourselves.

Special Prices on Large Lots

PRICE LIST

Palms, Agaves, Dracænas, Yuccas

Of all the plants, grown in California and in other states and countries, with climates similar to ours, none are more decorative or do more to give a tropical effect to our gardens and rural homes than the palms. For the home the smaller and more tender varieties do much to set off the interior decorations. There is such an endless variety of these striking plants, that sorts for the smallest garden which do not grow higher than four feet, to those which attain a height of 100 feet, may be selected.

As will be noticed from the following list, we carry a large stock of palms in boxes and tubs. These have been taken out of the open ground and are well established in their containers. They can be used either for porch decoration or planted out in the open ground. Such plants give an immediate effect and never go back when transplanted. Hardy sorts are marked with an asterisk (*).

Requisites for Orchardists and Nurserymen

PRICES NET.

GRAFTING WAX, ½lb., 15c; 1 lb., 25c.

MOSS, Selected Oregon, bales of 130 pounds, 3c per pound; 50 to 100 lbs., 4c per lb.

RAFFIA: Used for tying bench grafted vines. The most desirable and cheapest material known for tying plants. Very largely used by florists and nurserymen. Much cheaper than string, and more durable. Per pound, 20c; 10-pound lots, 15c per pound.

TREE AND POT LABELS.

	Per 1000
3½ inch Tree Labels, iron wire.....	\$1 00
3½ inch Tree Labels, copper wire.....	1 25
4 inch Pot Labels	75
5 inch Pot Labels	1 00
6 inch Pot Labels	1 25

TREE PROTECTORS.

Our extreme long, hot and dry summers make it imperative for all fruit growers to shade the bodies of young fruit trees the first season. A piece of burlap or common newspaper wrapped around the tree will answer the purpose, but the most efficient and valuable of all protectors is made from the Yucca Palm. It is easily put on, will outlast any other protector, and allows the air to circulate around the stem of the tree. We have used these protectors for years, and can recommend them very highly. Soak the bundles in water shortly before using.

	Weight Per 100
18 inches long, 7 inches wide, \$12.50 per 1000.....	13 lbs.
16 inches long, 7 inches wide, \$11.25 per 1000.....	12 lbs.
14 inches long, 7 inches wide, \$10.00 per 1000.....	10 lbs.
12 inches long, 7 inches wide, \$9.00 per 1000.....	9 lbs.
10 inches long, 7 inches wide, \$8.00 per 1000.....	8 lbs.
